Have confused adult sitting at desk staring at computer.	Learning objective: To create and organize modules within Canvas LMS	In this video, I will show you how to create and organize modules within Canvas LMS for your online course.	
	Step 1: Start a New Course .	After starting a course, locate the menu options on the left of the screen.	Zoom in to screen and circle the start a new course button.

	<p>Step 2: Select Module .</p>	<p>From the menu on the left side of the screen, select the module option.</p>	<p>Circle module option and have character select it.</p>
	<p>Step 3: Create Module.</p>	<p>Think of modules as groupings. Modules should align with how you intend to teach your course. For example, modules may represent units, chapters or weeks. Modules can be created by selecting create a new module or the</p>	<ul style="list-style-type: none"> • Show example of groupings. • Then zoom into the two options to create.

		blue button near the top right.	
	Step 4: Name the module.	Based on how you have decided to organize your course, name the module.	
	Step 5: Add content to the module.	Next, select the plus sign to add the desired content to the module.	Highlight and select plus sign.

		<p>You may add multiple types of content to each module. Discussion posts, assignments, and quizzes are a few of the options.</p>	<p>Showcase icons to symbolize the different types of content that can be added.</p>
		<p>Utilize the page option to separate modules into digestible sections . Videos and text can be utilized within pages.</p>	<p>Put number one next to add page, number 2 next to create page, 3 next to page name and 4 next to add item.</p>

	<p>Tips:</p> <ul style="list-style-type: none"> • Embed Videos • Be consistent • Minimize text for each page. 	<ul style="list-style-type: none"> • Upload videos to Youtube and aim to keep them under 30 minutes. Youtube allows captions and this provides accessibility for all. • Learners appreciate consistency amongst modules. Consider duplicating the module and editing to 	<p>Make checklist</p>
